## Happy Holidays from PEAK Measure!

We are excited to share the 2026 PEAK Measure calendar with you. For over 28 years, we have proudly created and distributed this calendar to our valued friends and partners in the utility and industrial sectors. Each edition celebrates the incredible photography contributed by our customers and highlights the natural beauty of the Northwest region.

Inside, you'll find more than just stunning images. The final two pages include helpful reference materials:

- Our updated **Line List**, located on the inside of the back cover, shows the high quality manufacturers we're proud to represent.
- Opposite our **Line List** is our coverage territory map.

Each month features key industry events, regional happenings, and holidays. While some events were not finalized in time for print, you can stay informed by visiting our website and checking out our e-newsletters.

We look forward to seeing you at this year's Peak Measure seminars!

**Fire Mitigation Seminar** Eugene, OR May 20  
 Latest strategies and technologies for wildfire prevention.

**2nd Annual PEAK Conference** Kennewick, WA July 22–23  
 Protection and automation applications from Northwest utilities.

**14th Annual Transformer Seminar** Portland, OR Sept 16–17  
 Advances in testing, maintenance, and extending transformer life.

Need extra copies for your team or want to update your contact details? Email the Inside Sales team at [orders@peakmeasure.com](mailto:orders@peakmeasure.com)

We look forward to partnering with you in the year ahead!

Warm regards,  
**The PEAK Measure team**

Sales Engineers:  
**John Bruns, Eric Sagen, Josh Greene, Tim Johnston, Sung Kim, Andy Kivi**

Inside Sales:  
**Kat Jordan, Tom Pike, Linhda Sagen, Maria Hummel, Gavin Garner**

We are thrilled to welcome Gavin Garner to our Inside Sales team! Gavin joined us this year and brings fresh energy and dedication to supporting our customers. Please do not hesitate to reach out and say hello.

*See territory map and contact details for the sales engineers near the back of the calendar.*

Please send **RFQ's, PO's and general sales questions** to the Inside Sales team at [orders@peakmeasure.com](mailto:orders@peakmeasure.com).

Please visit [www.peakmeasure.com](http://www.peakmeasure.com)

Scan this QR Code to open our website.

## 2026 Featured Seminars

**PEAK Measure Fire Mitigation Seminar**  
 May 20th in Eugene, OR

**PEAK (Protection, Engineering and Automation Conference)**  
 July 22nd-23rd in Kennewick, WA

**PEAK Measure Transformer Seminar**  
 September 16th-17th in Portland, OR

Please check for updates at [www.peakmeasure.com](http://www.peakmeasure.com)

## Want to be a part of the PEAK Measure 2027 Calendar?

We would like to invite all who love and enjoy Washington, Oregon, Idaho, Montana, Utah, Alaska, and Hawaii to show off your creative and photographic talents. No professional experience is needed.

**Please submit your photographs for the 2027 calendar before October 1, 2026.**

Photos will be chosen for a variety of subjects and seasons, with at least one picture for each of the 7 states, as well as one industry photo!

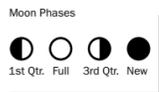

Details near the end of this calendar.

**North to Alaska!**

**INNOVATING POWER, EMPOWERING TOMORROW**

At HICO America, we don't just supply equipment—we deliver the systems and solutions that keep the grid moving forward. For more than 25 years, utilities and industries across North America have relied on us for trusted, high-performance power technology.

From our state-of-the-art manufacturing facility in Memphis to our turnkey service capabilities, we drive innovation, sustainability, and resilience—energizing a smarter, more connected future. Our portfolio includes advanced transformers, high- and medium-voltage switchgear, FACTS devices, and DAIS FAST™ technology, all designed to strengthen and modernize today's power networks.

Powering communities.  
 Driving progress.  
 Energizing the future.

### Doble PowerBase

*Enterprise Asset & Test Management System*

Doble PowerBase™ is a universal enterprise database platform that tracks unlimited power system components. The highly configurable interface lets you integrate engineering and operations data, including maintenance procedures and associated files, into seamless workflows that support office and field teams with automation, consistency, and clarity.

PowerBase puts you in control of how records, processes, and reporting functions should perform in support of your asset management and regulatory compliance goals. Professionals from Doble help you design and build your environment for an efficient experience across individual roles and use cases in your program.

**NUCOR®**  
TOWERS & STRUCTURES

REPOWERING AMERICA'S FUTURE

FROM SCRAP TO FINISHED STEEL STRUCTURE

Building America's energy infrastructure with American-made steel and steel products. Three state-of-the-art greenfield facilities are increasing capacity with modern technology and automation.

- Hazleton, PA (Original Location)
- Rock Hill, SC (HQ)
- Decatur, AL
- Crawfordsville, IN
- Brigham City, UT

**CHECK CURRENT BEFORE WORKING**

Use the Radio Ampstik for safe and easy verification of live-line amp values on primary or secondary circuits in the utility distribution system.

The Radio Ampstik uses the same current technology as the Ampstik with 1% measurement accuracy. The key feature of this unit is the ability to display the current reading up to 50 feet from the sensor on the remote display. The user has the option to hold the receiver in their hands, mount to a hot stick, or hang it on the bucket. This practical and useful display allows the user to keep both eyes and hands on the task of taking the measurement.

### Unifin Rapid Response Mobile Cooler (RRMC)

In response to terrorist events and threats, where transformer radiator cooling is targeted to allow 'getaway' time, Unifin has developed a cooling solution to prevent a prolonged outage.

A pumped flow rate of 150 gpm was selected as an acceptable design parameter, based on industry feedback.

In the event of an attack, the damaged radiators would be removed, and the ports used to connect the RRMC. Ideally, this is installed within 25 feet of the transformer.

**Design:** 3 fan horizontal cooler, 325 kW duty, 150 gpm at 55°C.

**Configuration:** 1 or 2 coolers. Layout drawing available.

**MAGNETRON**

**WE TRANSFORM ENERGY INTO SUSTAINABLE GROWTH**

**TRANSFORMING ENERGY INTO DEVELOPMENT FOR 54 YEARS**

Connect with PEAK Measure and Magnetron at [www.peakmeasure.com](http://www.peakmeasure.com)

	<b>Single Source Procurement</b> - Let us handle gathering & delivering all the materials for your project. <b>Factory-built substations</b> , substation storm-hardening & pre-fabricated bus, all using 3D engineering & design. <b>DIS-TRAN builds your substation in the factory and ships it to you complete.</b>
	Protective relay & circuit breaker test instruments; Insulation analyzers; SFRA; DGA & Partial Discharge monitors. <b>NEW: F8 Relay Test Sets!</b> Doble offers products from the following subsidiaries: 
	Coil Innovation specializes in the design, manufacture and sales of <b>air-core, dry-type reactors</b> that are utilized in the generation, transmission and distribution of electrical power as well as industrial applications such as electric arc furnaces.
	Substations & High Voltage: turnkey, unitized skid & modular substations, <b>mobile substations</b> . <b>Switchgear:</b> metal enclosed, medium voltage, full range of custom options. <b>Pad-Mt Primary Metering. Capacitor &amp; Harmonic Filter Banks:</b> metal enclosed, medium voltage, full range of custom options. Custom transformers and reactors. Custom, metal enclosed products and packages.
	<b>Solid dielectric reclosers and switchgear;</b> SF6 Switches; Automatic-Transfer Controls and fault interrupters; cable terminations & joints; epoxy products including, current limiting fuses, junction bars, apparatus bushings, transition modules, and splice boxes. <b>NEW: Viper-HV 72kV Recloser!</b>
	Power transformers and shunt reactors, up to 765 kV 2050 kV BIL, 2,200 MVA capacity. Gas Insulated Switchgear up to 800 kV. <b>NEW: Battery Energy Storage Systems (BESS); STATCOM; SF6 and Air Insulated Metal Clad Switchgear</b>
	MAGNETRON provides <b>Transformers</b> built according to the most advanced manufacturing technology, using new materials of the highest quality. <b>Pad Mount, Pole Mount, Dry Type, Phase Shift, &amp; Variable Frequency.</b> 40+ years of manufacturing experience and processes developed by engineers inspired by concepts of manufacturing the best technologies worldwide.
	Our <b>American-made steel poles and towers</b> meet the specifications of the power transmission market with offerings <b>up to 765kV</b> . Nucor is the largest and most sustainable steel producer in the United States. With unrivaled access to steel, we are investing in capacity for the power market.
	Substation instrument transformers. Substation Hook Stick and Gang Operated Switches. Solid Core Porcelain station post insulators. <b>High Voltage SSVT, New Vertical Break GOAB design, New 69kV vacuum interrupted, magnetically actuated circuit switcher!</b> 
	Comprehensive generator, transmission, and distribution protection; distribution automation; control systems; telecommunications; precision timing; custom panels and enclosures; custom engineering services. <b>NEW: Blueframe DMA &amp; FLISR; SEL-T401L Ultra-High-Speed Line Relay; RTAC Axion Bay Controller w/ touchscreen; SEL-735 Touchscreen PQ Meter!</b>
	Hot-line Meters measure current to 5000A in environments of 500kV, voltage up to 37,000V, direction of current flow, and power factor. Recorders for primary load and power quality studies.
	<b>SCADA, Distribution Management (DMS), Outage Management (OMS) &amp; Substation HMI. FLISR (Fault Location, Isolation, Restoration); GIS Wizard; SmartVU 3.0 with advanced OMS &amp; DMS.</b>
	Cardinal© and Harley© pumps and exchangers; cooling systems for transformers and generators.

**PEAK Measure represents our manufacturers throughout AK, HI, WA, OR, ID, MT and UT.**

Exceptions: SEL represented in OR, WA, AK & N. Idaho. UT doesn't include SEL & SensorLink. MT does not include ITEC. HI doesn't include Nucor & Coil Innovations
